

Operations Research and Systems Analyst

Nellis AFB, Las Vegas, NV – Full-time – Not a remote position

Global C2 Integration Technologies is looking for a talented and enthusiastic **Operations Research and Systems Analysis (ORSA) Subject Matter Expert (SME)** experienced and trained in statistical modeling and simulation tools to inform data-driven decisions to provide subject matter input, technical support, and test support on a Joint Feasibility Study team.

Responsibilities

- Perform quantitative and qualitative analysis throughout the test process.
- Produce clear and concise analysis.
- Manage copious quantities of data, develop strategies, develop metrics, and provide detailed recommendations to team and Project Manager.
- Apply advanced analytical and mathematical techniques to solve complex problems and optimize decision-making.
- Use proven mathematical models and algorithms to assist in decision-making, improve efficiency, and maximize outcomes.
- Bring an analytical mind to bear in strategy and courses of action (COA) development.
- Develop measures of performance and measures of effectiveness for test assessments.
- Effectively communicate implications and recommendations to team and Project Manager.

Required Qualifications/Experience

- 3-5 years' experience conducting ORSA responsibilities.
- Experience developing and applying probability models, statistical inference, simulations, optimization, and economics models to provide quantitative analysis to decision-making.
- Experience performing analysis of alternatives to determine baseline requirements; conduct gap analysis to achieve government's end-state vision.
- Ability to work as a constructive member of a team comprised of military, civilian, and contractor personnel.
- Proficiency with MS Office suite of applications.
- Sound verbal and written communication skills.

Desired Qualifications/Experience

- Training in the field of Data Science (certification preferred).
- Eight (8) years DoD experience as a military and/or contractor personnel.
- Experience with Joint Test & Evaluation processes.
- Experience developing project and test plans.
