

## Software Engineer I

### Remote Position (or Las Vegas, NV) - Full-time

Global C2 Integration Technologies is looking for talented and enthusiastic engineering staff with a talent for creative coding and information design to work on application development, data analytics, cloud stacks, and enterprise architecture. As a Software Engineer specializing in cloud-based, service-oriented development, you will be responsible for working on the implementation of advanced analytics and collaborative technological solution to support a U.S. Department of State funded foreign assistance program in partnership with Department of Justice (DOJ) International Criminal Investigative Training Assistance Program (ICITAP). The Global Integration Support (GIS) program aims to assist partners in integrating existing databases, systems, and information to drive investigative law enforcement capacity through an advanced analytical investigative platform leveraging data analytics, visualization, and artificial intelligence/machine learning (AI/ML) technology in a secure computing environment.

Your role will involve designing, developing, and deploying services to enhance the effectiveness and efficiency of law enforcement investigative efforts in countering terrorism.

#### **Key Qualifications:**

- Ability to do rapid prototyping based on demonstrated fluency in multiple operating environments.
- Experience with J2EE, Java, C#, and scripting languages.
- Working knowledge of utilizing Open-source technologies such as Apache Heron, Ignite, Zookeeper, Kafka, etc.
- Basic understanding of mobile app development on either iOS (Swift) or Android (Kotlin/Java) platforms.
- Familiarity with cross-platform development frameworks like Flutter or React Native is a plus.
- Ability to write clean, efficient, and reusable code under supervision and guidance from senior engineers.
- Willingness to learn and adapt to new tools, technologies, and best practices in mobile app development.
- Knowledge of basic version control (Git) and ability to collaborate with teams using source code repositories.
- Understanding of UI/UX design principles and a willingness to collaborate closely with designers to implement user-friendly interfaces.
- Basic debugging and troubleshooting skills to identify and fix bugs in mobile applications.
- Eagerness to participate in code reviews and accept constructive feedback for continuous improvement.
- Excellent conceptual and strategic thinking skills with impeccable attention to detail.
- Knowledge of unit testing.
- Strong written and verbal communication skills to effectively interact with team members and report progress or challenges.
- Strong collaborative and brainstorming skills in a team environment.
- Both self-motivated and responsive to direction.

#### **Requirements:**

- Willingness and ability to obtain and/or maintain a U.S Government Top Secret clearance (Reference [Executive Order 12968](#), requiring current U.S. Citizenship for security clearance eligibility)
- Agreement on completing a pre-employment drug screening and background check.

- Occasional travel (approx. 20%) domestically and internationally to engage with U.S. government and implement program with foreign government partners.

**Education:**

- Computer Science, Engineering, or related fields

**Compensation:**

- Annual salary may range between \$65,065 - \$92,951, based on experience.

**Physical Demands:** The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodation may be made to enable individuals with disabilities to perform the essential functions. While performing the duties of this job the employee is regularly required to climb, bend, stretch, walk, sit use hands to handle or feel; frequently use fingers to type; talk and hear; occasionally stand, kneel, stoop, crouch, bend, twist or reach out; may require lifting or moving 10 lbs.; frequently required to reach with hands and arms. Vision requirements for this position include close vision, distance vision, color vision, peripheral vision, depth perception and ability to adjust focus.

**Work Environment:** Work environment will have moderate noise when working in an office environment.

**ADDITIONAL INFORMATION: Equal Opportunity Employer** - The Company does not discriminate based upon race, religion, color, national origin, sex, sexual orientation, gender, gender identity, gender expression, transgender status, sexual stereotypes, age, status as a protected veteran, status as an individual with a disability, or other applicable legally protected characteristics.

All applicants must be able to perform the essential functions of the position, including corresponding core job requirements, with or without reasonable accommodation. Reasonable accommodation may be made to enable individuals with disabilities (and others in accordance with applicable law) to perform the essential functions of the job, consistent with applicable laws and Company policy.

**Job Type: Full-time**
