

Full Stack Developer Tactical Data Link (TDL)

Global C2 Integration Technologies is looking for an enthusiastic and talented engineering staff member in **San Antonio, TX** meeting the following qualifications:

Key Qualifications

- Experience working within a DevOps team.
- Plan and conduct initial and regression developmental testing on various platforms integrating equipment and applications processing Link 16, SADL, VMF, Harris SA, CoT, MADL and IFDL data
- Proficiency in Python and C++
- Knowledge and experience with SQL (Postgres or MySQL) and NoSQL (AWS DynamoDB) technologies
- Working knowledge of technologies such as Elastic stack, Hadoop, Kafka, etc.
- Experience deploying services in a containerized environment.
- Proficient with source control.
- Exposure to developing inside of VMWare environments.
- Demonstrated ability to write and conduct testing, including end-to-end and user acceptance testing phases, using best practices in software testing agile methodologies.
- You write excellent, well-documented, and highly tested code.
- Experience working with large distributed systems with demanding reliability and SLA requirements.
- A bachelor's or master's degree in computer science or software engineering, or equivalent experience.
- Aptitude for problem solving, thinking outside the box, excellent time-management skills, and a strong sense of accountability is desired; proven experience delivering customer-focused results is essential.
- Relevant technical experience in areas related to tactical data links, data link radios, radio frequency waves and propagation, and computer networking concepts.
- Experience with a JavaScript Framework (examples: Angular/React/Ember/Knockout/Backbone/Vue)
- Experience with a backend language (examples: Java, Node, Groovy, Python)
- Experience developing Flight Tracking backend a strong plus.
- Open-source contributions a plus. (please provide a link to your contributions)

Work Experience

- 5+ years of experience with Software / System Development
- 5+ years with frontend and backend frameworks
- 3+ years of experience working in an Agile environment.
- 2+ year of experience with Tactical Data Links

Eligibility

- Ability to obtain and maintain a U.S. DoD Security Clearance.
