

Global C2 Integration Technologies is seeking a Senior-level Logistician to support the Pocket J maintenance, Cybersecurity, and systems upgrade program team.

PRIMARY DUTIES, RESPONSIBILITIES:

Serves as the sole Logistician for the Pocket J systems maintenance, Cybersecurity, and systems upgrades program. Pocket J is the primary ground-based Tactical Data Link (TDL) Gateway supporting Headquarters Air Combat Command and the North American Aerospace Defense Command (NORAD) air sovereignty missions for Home Land Defense (HLD) in direct, functional support of the Continental United States (CONUS) NORAD Region (CONR) Concept of Operations.

Skills Required:

- Current Secret security clearance
- Bachelor's degree
- Demonstrated senior-level experience (4+ years) in the analysis and coordination of the logistical functions of a government program
- Experience inventorying and accounting for GFE
- Experience managing logistics support for military systems
- Experience collaborating with other program functional areas to meet customer requirements, developing an understanding of customers' needs, and taking actions to meet such needs
- Experience planning, organizing, and executing logistics support activities such as maintenance planning, repair analysis, and test equipment recommendations
- Experience managing the logistical aspects of system and equipment life cycles, including coordination or provisioning of system upgrades, and the disposition of obsolete equipment
- Experience with DoD Issuances (DoDI) requirements for procurement and shipping procedures
- Experience reviewing logistics performance with customers against targets and service agreements
- Experience directing the availability and allocation of equipment and supplies, ensuring the availability of resources
- Experience staying informed of logistics technology advances, and applying appropriate technology in order to improve logistics processes
- Proficient at using Microsoft Office applications
- Sound organizational, interpersonal communications and writing skills

Desired Qualifications/Experience :

- Current Top Secret security clearance
- 10 years DoD experience as a military and/or contractor personnel
- Recent, relevant experience with interfacing with government and contractor personnel
- Previous operational, networked logistical support experience
- Experience explaining proposed solutions to customers and program management through written proposals and oral presentations
- Experience redesigning the movement of equipment and supplies in order to maximize efficiency and minimize costs and maintenance downtime
- Experience supporting the development of training materials and technical manuals
- Experience assisting with the formulation and review of project feasibility studies
- Experience managing lab and office spaces
- Experience in efficient package shipping and management

Location: Austin, TX

Clearance Required: Current Secret security clearance

Job Type: Full-time, Contract – Contingent Upon Contract Award

Compensation: Based on experience
