

## PROGRAM MANAGER

Las Vegas, NV - Full-time – Not a remote position

**Global C2 Integration Technologies is seeking a Program Manager to lead the Theater Operationally Resilient Command & Control (TORCC) Program to include TORCC Business Development, Program Execution, TORCC Support Center, and other program requirements.**

### **PRIMARY DUTIES, RESPONSIBILITIES, & PROGRAM DESCRIPTION:**

Serves as the Program Manager for TORCC programs and product management. The TORCC PM is responsible for program execution, program direction, TORCC Support Center / maintenance programs, ISO 9001 standards, upgrades and modernization, cybersecurity efforts, and supports TORCC-related business development. Specific duties are to include:

- The Program Manager will lead a team of subject matter expertise in the configuring of commercial off-the-shelf IT components and integrating complex software components into a tactical system used by militaries world-wide and civilian agencies.
- Directly communicate with software/hardware partners for technical details, updates, ordering, and billing considerations.
- Actively interact with customers for feedback, improvements, and follow-on purchasing.
- Create and execute demonstrations for potential customers showcasing TORCC's capabilities.
- Lead on-site installation and training efforts, must be willing to travel world-wide.
- Use technical and tactical expertise in the research and development cycles for product improvement.

TORCC is an operational-to-tactical C2 integrated system that supports open architecture, secure computing standards and integrates the best-in-breed components from industry today. Specifically, TORCC systems deliver C2 functions in order to provide situational awareness (SA), detailed planning, data link management, battlespace simulation training, and communications components in order to execute critical, multi-domain C2 missions. The primary goal of TORCC systems is to integrate seamlessly into a fully functional and operational integrated air and missile defense (IAMD) capability.

GC2IT TORCC systems are currently operational at the following locations: Kadena Air Base, Japan; Eielson Air Force Base, AK; Wheeler Army Air Field, HI; Aviano Air Base, Italy; Basa Air Base, Philippines, and Royal Air Force (RAF) Boulmer, United Kingdom. Future TORCC efforts include PACAF TORCC system upgrades and several foreign military sales (FMS) efforts.

### **Skills Required:**

- Current Secret security clearance
- B.S. degree
- Demonstrated experience (3+ years) in the management of substantial design, development, and test projects
- Experience in organizing, directing, and coordinated planning and implementation of contract support activities
- Recent, relevant experience with interfacing with government and contractor personnel
- Demonstrated experience in interpreting and implementing productive organizational policies, purposes, and goals for subordinates
- Managed logistics and maintenance support for military or civilian integrated computer systems
- Experience identifying, acquiring and utilizing all required resources to achieve project objectives
- Recent relevant experience with systems upgrades and test planning, successful execution, and post implementation documentation and senior staff briefing development and presentation
- Proficient at using Excel, Project, and PowerPoint
- Excellent organizational, interpersonal communications and writing skills; to include experience with technical and professional writing

**Desired Qualifications/Experience :**

- 15 years DoD experience as a military and/or contractor personnel
- PMP Certification
- Master's Degree – M.S. in STEM discipline
- Current SSBI Top Secret security clearance
- Previous C2 System or similar experience
- Tactical Datalink, Joint Interface Control Officer (JICO) experience
- Raytheon Solipsys Battlespace Command & Control Center (BC3) experience
- PLEXSYS Advanced Simulation Combat Operations Trainer (ASCOT) experience
